Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Monday 15 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Dry with sunny spells through the day, then overnight rain.

Today:
Today will start dry and bright for most, though there will be a bit of cloud about. Through the day this cloud will build, possibly bringing isolated light showers with it, but remaining largely dry. Less windy than of late. Maximum temperature 11 deg C (52 deg F).

Tonight:
After a mainly dry start thickening cloud will bring light rain to all parts this evening. Clearing eastwards after midnight, followed by another band of showery rain around dawn. Minimum temperature 6 deg C (43 deg F).

Tuesday:
Monday night's rain expected to clear southeast in the morning leaving a dry afternoon. The cloud will disperse along with it, leaving plenty of sunny spells and a clear evening. Maximum temperature 15 deg C (59 deg F).

Outlook for Wednesday to Friday:
Wednesday fine and dry. Thursday light rain in the morning largely clearing later. Friday mostly dry but cloudy, with the odd local shower possible.
